

TM CLEARSAANA ECO

FEATURES

- ✓ TM ClearSana Eco is a liquid alkaline cleaner with the effect of a disinfectant. For heavy duty treatment of all kinds of beverage dispensing systems.
- ✓ Tripple concentrate - only 1% application concentration
- ✓ Chlorine-free, no surfactant. Easy to rinse out. Ideal for cleaning beer lines.
- ✓ Recommended for regular cleaning - particularly for re-circulation procedures
- ✓ Premium caustic blend (30-40% Sodium Hydroxide and Potassium Hydroxide)

YOUR BENEFITS

- + best cleaning properties for heavy-duty deposits because of its unique formula, extra strong alkalinity
- + very economical due to its high concentration - use just 1% (100 ml / 10 l water)
- + red tint of TM CLEARSAANA ECO ensures application safety, without leaving stains on the equipment
- + Contains no surfactants and therefore rinses out much faster than other alkaline cleaners

DELIVERY	6kg jug, 35 kg jug, 250 kg barrel, shelf-life: 18 months shelf-life, storage temperature approximately 5-35 °C.
DOSAGE	100ml for 10 liters
ORDER	contact your authorized retailer at www.thonhauser.net
ATTENTION	Don't overdose! TM CLEARSAANA ECO has very strong alkalinity - 1% is the ideal concentration! Wear protective clothing (gloves, goggles).
DISPOSAL	The mixed / used TM CLEARSAANA ECO solution is drained together with the flushing water into the sewer. The pH value drops to 8 to 9.5 by the usual dilution.
LABELLING	Dangerous goods for road transport according to ADR. For more information see MSDS.

IT'S THAT EASY

1. PRE-RINSE

Always rinse the cleaning container and all beverage lines with tap water.

2. PREPARE SOLUTION

Fill cleaning container or bucket with luke warm water (up to 35° C) and add 1% TM CLEARSAANA ECO.

3. FILL LINES

Attach tap head of the beverage container under the CO₂ pressure onto the cleaning container or put lines into the bucket with cleaning solution and start the pump.

4. 10 MIN. CONTACT TIME

Allow a minimum contact time of 10 min. (re-circulate or soak). Maximum contact time: 30 minutes.

5. FLUSH OFF WITH WATER

Fill bucket or cleaning container with tap water and flush off TM ClearSana solution. Check pH is below pH 8 (e.g. by using a pH test strip) before re-connecting beer kegs to the system.

Always read the label and product information before use. ONLY FOR PROFESSIONAL USERS! RINSE WITH DRINKING WATER BEFORE AND AFTER EACH USE!
